Brand language is the body of words, phrases, and terms that an organization uses to describe its purpose or in reference to its products. Brand language is used in marketing to help consumers connect specific words or ideas to specific companies or products. When developing a brand language, word choice and tone are the two fundamental components.

Brand skeptics think of the premium prices that for-profit firms charge for brand-name products and worry that this elevation of brand over substance will debase their work. They worry that the names of their organizations will be inflated beyond what the quality of their work alone would support, as the pursuit of revenue becomes a goal in its own right.
